

Lesson: Plant and Animal Cells

Name:

Teacher:

Date:

1. Draw a line to label three organelles in each cell and state their function.

### Plant Cell

Organelle	Function
1.	
2.	
3.	

### Animal Cell

Organelle	Function
1.	
2.	
3.

2. Which organelle is present in plant cells but not in animal cells? What is its function?

---

---

3. True or False:

- Both plant and animal cells have mitochondria.
- Plant cells have a cell wall.
- Animal cells have chloroplasts.

---

---

---

4. Why do plant cells need chloroplasts but animal cells do not?

---

---

---
